

# Chase the BIRDS

## WHO WILL REACH THEIR TARGET FIRST?

In the new animated adventure RIO 2, Nigel is back for revenge and constantly pursuing Blu. With a friend, play as either Nigel or Blu and start at each character's square. Take turns rolling a die to determine how many steps you take through the maze. If you land on a square with a number and arrow with your corresponding shape, take that many steps in the direction the arrow tells you. If you reach a dead end, you have to backtrack. If Nigel lands on the same square as Blu, Nigel wins the game, but if Blu manages to reach the end square first, he's the winner.
